Call to Order.

Minutes

1. JPA Board Meeting Minutes from February 26, 2015. (Action)

Regular Agenda

2. FY 15-16 JPA Budget and Assessment Schedule (Action)

3. Fourth Cycle Zero Waste Grant Reports and Cycle Five Forms (Action)

4. Elect New Chair (Action)

Agendas & staff reports available at:
http://zerowastemarin.org/Agenda
Call to Order: The JPA Board meeting came to order at 09:05 AM.

**Regular Agenda**

Staff introduced the recently hired Zero Waste Specialist, Casey Poldino. Ms. Poldino formerly worked at Conservation Corps North Bay as their Community Recycling Program Coordinator. Staff stated that the Bulb & Battery Program costs are out-pacing the current budget of $75,000 due to increased contractor labor costs. Staff noted that there will be a request to allocate up to $25,000 of contingency funds to cover program expenses for the rest of FY 14/15.

1. JPA Board Meeting Minutes from October 23, 2014
   M/s Frank, McCann to approve the minutes for the October 23, 2014 JPA Board meeting. The motion passed unanimously.

**Consent Calendar**

2. Executive Committee Budget Subcommittee and FY 15/16 Budget Development Schedule

4. Receive and File City of San Rafael FY 13/14 Household Hazardous Waste Program Annual Report
5. Executive Director Signature Authority for Professional Services Contracts and Purchase Orders

6. Signature Authority to Apply for, Account for, Contract for and Carry the Oil Payment Program

   No public comments were received. M/s Stutsman, Neilan to approve the full Consent Calendar as presented. The motion passed unanimously.

   **End Consent Calendar**

   **Regular Agenda**

7. Release Budgeted Funds for Use in Supporting Pharmaceutical Take-back Program

   Staff described the JPA’s role of historically funding the sharps disposal and introduced Rebecca Ng, Deputy Director, Marin County Health & Human Services (HHS). Ms. Ng summarized the current Pharmaceutical Collection program, which is funded by Marin’s various sanitary districts. The 15 existing collection locations include 4 new containers added at Kaiser Permanante facilities. Kaiser, which had not participated in the program due to liability concerns, recently joined the program after participating in RxSafe Marin’s efforts to tackle the local prescription drug misuse and abuse epidemic. Due to high traffic those Kaiser locations are likely to encounter it is likely the program will need additional funding to handle the additional volume of pharmaceuticals. RxSafe Marin also has a goal to expand collection of pharmaceuticals to over 50 locations throughout Marin and will also pursue adoption of a Pharmaceutical Take-back Ordinance to provide a permanent manufacturer funded solution. HHS is requesting additional funding from the sanitary districts but also seeks funding from the JPA. Staff explained that JPA funding has only been used for sharps disposal and outreach. Funding pharmaceutical disposal is a new venture for the JPA, so it requires Board approval. Ms. Ng fielded questions from the Board, explained the pharmaceutical disposal process, and reported that Kaiser is not offering funding for the program. M/s Schwarz, Frank to approve allocation of up to $7,400 of the funds currently budgeted for the Sharps Program in the HHW Fund Center (70071) to the Pharmaceutical Disposal Program on an as needed basis. The motion passed unanimously.
Date: May 28, 2015

To: JPA Board Members

From: Steve Devine, Program Manager

Re: FY 15/16 JPA Budget and Assessment Schedule

Attached are the proposed FY 15-16 budget and hauler/facility assessments for the Marin County Hazardous and Solid Waste Management Joint Powers Authority (JPA). While expenditures are down year over year, the budget reflects a 7% increase in assessments compared to last fiscal year due to one-time carry over adjustments. The main source of the year-over-year increase for FY 15/16 is that there is an increase in the Bulb and Battery program budget in both FY 14/15 and FY 15/16 and there is the addition a full year’s impact of the new Zero Waste Specialist (versus only half a year last Fiscal Year). The JPA has three budget centers to manage its operations: Administration, Zero Waste and Household Hazardous Waste (HHW).

61% of the total JPA Expenditure Budget is devoted to the household hazardous waste program which collects over 1.6 million pounds of hazardous waste annually. The JPA retains HHW services for the community via a contract with the City of San Rafael Fire Department which in turn contracts with Marin Resource Recovery Association (MRRA). MRRA operates the HHW facility at 565 Jacoby Street in San Rafael. Novato provides and funds a separate service via the Novato Sanitary District.

Marin Sanitary Service reports that the JPA assessment equates to approximately 17 cents on the 32 gallon standard service.

The overall budget includes three notable items to help address Marin’s 2012 diversion rate of 75% missing the interim Zero Waste goal of 80% diversion for 2012:

- $50,000 is budgeted to conduct outreach to schools based on the findings from a research project being conducted on behalf of the JPA by Environmental Science Associates (ESA). These funds will allow for the new Zero Waste Specialist to provide outreach materials, education, collection bins, or items/services recommender by ESA’s report to Marin schools.
- The Zero Waste Specialist position is budgeted for a full year (last year it was at 50% due to start date timing). The position assists
Marin in zero waste program implementation, State compliance issues, and helps coordinate HHW programs

• Continued operation and streamlining of the Zero Waste Grant program to a “block grant” style program utilizing a certification style application process – similar to the Measure A Parks program.

Changes in the three JPA fund centers are shown below:

<table>
<thead>
<tr>
<th>JPA Expenditures</th>
<th>14/15</th>
<th>15/16</th>
<th>Change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Zero Waste (70073)</td>
<td>$966,227.00</td>
<td>$768,747.70</td>
<td>-$197,479.30</td>
</tr>
<tr>
<td>Administration (70070)</td>
<td>$452,768.00</td>
<td>$471,935.85</td>
<td>$19,167.85</td>
</tr>
<tr>
<td>HHW (70071)</td>
<td>$2,029,723.00</td>
<td>$1,971,041.77</td>
<td>-$58,681.23</td>
</tr>
</tbody>
</table>

The following three fund centers are outlined in this budget:

1. **ADMINISTRATION**
   (JPA Section 6.1) *All Members Participate*
   The JPA’s planning and administration functions are funded through the 6.1 budget center and administered by contract with the County of Marin.

2. **HOUSEHOLD HAZARDOUS WASTE**
   (JPA Section 6.2) *Optional Member Participation*
   The Household Hazardous Waste program is funded through the 6.2 budget center. The San Rafael Fire Department provides facility oversight by a contract with Marin Recycling & Resource Recovery Association. Novato does not participate in this program – but operates its own HHW facility and services.

3. **ZERO WASTE**
   (JPA Section 6.2) *Optional Member Participation*
   The Zero Waste program is funded out of a separate 6.2 budget center and administered by contract with the County of Marin. Novato does not participate in this program.
ADMINISTRATION

Budgeted expenditures for FY 15/16 of $471,936 are $19,168 more than the FY 14/15 budget and account for 15% of proposed JPA expenditures. This fund center provides resources for State law required disposal tracking and reporting. This fund also supports addressing the much increased demands from Cal Recycle for diversion monitoring and AB 341 (mandatory commercial recycling) compliance.

Costs for the JPA’s staffing contract with the County reflect the full cost of the Zero Waste Specialist position (spread across all three budget centers) and an anticipated 3% cost of living adjustment for Marin County employees.

Contingency funds for the Administration Budget Center are set at 20%.

HOUSEHOLD HAZARDOUS WASTE

Budget expenditures for FY 15/16 of $1,971,042 are $58,681 lower than the FY 14/15 budget and account for 61% of proposed JPA expenses. The main source of the year-over-year decrease is the completion of a one-time grant funded $75,000 Less Toxics Alternatives outreach project. The popular Bulb and Battery Drop-off program budget is increased by $25,000 over the original FY 14/15 budget for a total of $100,000 (the same amount as a proposed mid-year adjustment) due to increased costs from the recycling vendor. This program has been very successful at coordinating the pickup used fluorescent
bulbs and batteries at dropped off at local hardware and convenience stores. The cost increase will pay for increase waste processing fees.

The City of San Rafael and Marin Resource Recovery Association are proposing a 2.7% increase in the HHWF operating budget. Rising disposal costs over the past several years have been mitigated by funding from the new “Paint Care” program. Paint Care is a new extended producer responsibility (EPR) program in which users (paint buyers) pay an advanced disposal fee to offset the costs of dealing with leftover paint at the end of its lifecycle.

Also included in this budget is $27,838 for the thirteenth year of a grant to supplement Novato’s Household Hazardous Waste Program. The grant is equal to the Novato self-haul fee amount levied on Redwood Landfill for the HHW Fund.

The JPA also took over administration of Marin’s Oil Payment Program in FY 13/14 and will continue to operate this successful program in FY 15/16 with State grant funds.

Lastly, the JPA also helps fund sharps and pharmaceuticals collection programs operated by the County’s Environmental Health Division. There are 18 sharps sites in the County and 15 pharmaceutical sites.

Contingency funds for the HHW Budget Center are set at 20% in FY 15/16.

ZERO WASTE

Budgeted expenditures for FY 15/16 of $768,748 are decreased by $197,479 from the approved FY 14/15 budget and account for 24% of FY 15/16 proposed JPA expenditures. This reduction is largely due to the one-time expense of zero waste grant funds being held on reserve by the JPA which have since been released to the Member Cities.

The major components of this budget are $250,000 for the zero waste grant program, $200,000 to continue the public outreach campaign, $50,000 for school programs, and $25,000 for the construction and demolition debris recycling program.

The zero waste grant program continues to provide a mechanism for the Member Cities to operate waste reduction programs and activities that they might not otherwise be able to fund. The zero waste outreach campaign reaches Marin citizens though various media channels including television, Facebook, in-person “green teas”, and farmers markets. The schools program is something that will likely get a fresh look next year after the results of the study being performed on behalf of the JPA by Environmental Science Associates. That said, investing in Marin’s future is the only way that Marin will reach the zero waste goal – and focusing on our youth is key to that effort. Outreach efforts include school assemblies, classroom presentations, supplement materials for classroom curriculum and targeted technical assistance.
BACKGROUND

The JPA Board's Budget Subcommittee of Members Mackle and Hymel met April 7, 2015 to review the draft budget and provided feedback to staff which is incorporated in the budget presented here.

RECOMMENDATION

Adoption of the attached FY 15/16 budget as proposed.

Attachments.

February 12, 2015

Steve Devine
Marin County Hazardous and Solid Waste Management Joint Powers Authority
PO Box 4186
San Rafael, CA 94913-4186

RE: Fiscal Year 2015/16 Budget Proposal

Dear Steve,

Please accept this letter as the Fiscal Year 2015/16 budget proposal for the Marin Household Hazardous Waste (HHW) Program. The allocation amounts for the City of San Rafael (City) management oversight and for Marin Recycling and Resource Recovery Association (MRRRA) contractual services are provided herein.

The HHW Program budget for FY 2014/15 was $1,466,043 which included a 2.5% CPI increase from the previous year for MRRRA, as well as a reduction of $150,000 to accommodate for PaintCare savings. The HHW Facility's budget is projected to be on target for FY 2014/15. In addition, the Marin Household Hazardous Waste Program FY 2013/14 Annual Report is now available. Thanks mainly to the implementation of PaintCare in January 2014, the HHW Program ended FY 2013/14 $169,134.73 under budget.

HHW Program budget proposal summary:

For FY 2015/16, the budget proposal for the City of San Rafael management oversight is $149,724 which includes a 2.7% CPI-U increase from the previous year.

We are proposing that the MRRRA contractual services budget also allow for a 2.7% CPI-U increase from last year, providing a total MRRRA budget of $1,355,902. The CPI will allow for a slight salary increase for the HHW facility staff from an average of $18 per hour to $18.48 per hour and will also help pay for projects that are required to comply with the collection agreement between the City and MRRRA.

(See table on the next page.)

From: Steve Devine, Program Manager
Re: Fourth Cycle Zero Waste Grant Reports and Cycle Five Forms

The fourth cycle of the Zero Waste Grants term has concluded and the final reports from all grantees are attached. Additionally, staff has attached the forms for the Fifth Cycle of the Zero Waste Grant for your approval. The primary focus of the grant program is to help institute programs that contribute towards reaching the goal of Zero Waste in each of the cities/towns, the County and special districts.

Overall, the fourth cycle of the grant program was a success with many worthwhile programs being funded. However, due to the upfront payment of grant funds some funding is being returned to the JPA by Sausalito, Ross, the County of Marin, and the Homestead Valley Sanitary District. San Rafael, Corte Madera, and the Bolinas Community Public Utilities District had encumbered funds for programs that will be funded in the first couple months of FY 15/16. They were encouraged to continue those efforts and report on the activities prior to their occurrence.

In the FY 15/16 budget the JPA will be offering $250,000 to member agencies in its fifth cycle of Zero Waste Grant.

JPA staff has attached the following grant documents for your approval:

- Grant Guidelines (Exhibit A)
- Application and Work Plan (Exhibit B)
- Final Report Form (Exhibit C)

These documents define the purpose, goals, requirements, milestones, and will facilitate the grant process. The grant program encourages adoption of the Zero Waste Toolkit Documents as primary programs and provides a list of secondary programs that can help cultivate a Zero Waste atmosphere.

In the fourth grant cycle the JPA Board recommended making monies available with simplified Certification Forms to help streamline the process by making payments up front. However, since funds were available on a use it or lose it basis several agencies are returning funds to the JPA. The documents for this year dictate the process remains the same, but if the JPA Board wishes that
the funds stay with the member agency or should be granted extensions in the future that clarification can be made now.

**Recommendation**
It is recommended your Board accept the grant attached grant reports, review and approve the attached grant documents, authorize the Executive Director to enter into grant agreements with member agencies and approve discretionary adjustments to the grants during the grant term, and make a recommendation regarding the repayment of unspent grant funds.

| Zero Waste Implementation Plan | The plan scope of work includes:  
  - Assess current programs, identifying opportunities for improvements.  
  - Identify target sectors and materials for increased diversion.  
  - Identify optional additional programs and policies.  
  - Facilitate review by generators and service providers.  
  - Estimate diversion potential and costs from selected programs and policies  
  - Identify funding alternatives and estimate rate impacts  
  - Obtain Council approval for the phased implementation plan | $56,213.01  | The specific tons being diverted is being identified as part of the plan. It is anticipated that the majority of the material will be organic material/food waste and recyclables from multifamily dwellings and commercial premises. Approximately 6400 tons of waste goes to the landfill from Corte Madera, of which 1728 tons is food waste. The Town is targeting diversion of the foods waste. |

Cc: Sean Condry
Subject: RE: Grier’s bill

Grier has provided one quote to install the fountain at Robson Harrington Park for $3,390. The cost will vary based on where we put the fountains at the other parks. I would assume the cost for installation would be about $4,000 each including the fountain installation, concrete pad and drain pit. That would be $12,000 total for the first three plus the fourth that would be installed later with the Greenfield median Parklet.

Dan

Subject: Grier's bill

Hi Dan,
It looks like Grier's bill is for the refilling stations only. Do we have an estimate for installation?

JPA Zero Waste Grant Cycle 4 Final Report Form Exhibit D, Supplement to Question 4

Estimated Diversion Summary:

3 tons diverted annually from Public Trash Receptacles
12 tons diverted annually from Willow Creek Academy
85 tons diverted annually from Commercial
82 tons diverted annually from Multifamily
182 tons diverted annually

Purchase and installation of new triplet cart garage

The 2012 Waste Characterization Study (Study) prepared under the Cycle 2 Grant showed that under the City’s existing recycling and composting program a significant percentage, by weight, of Municipal Solid Waste (MSW) could be removed from the City’s Public Trash Receptacle waste stream. From the Study, the following percentages are currently recoverable within the Public Trash Receptacle waste stream:

<table>
<thead>
<tr>
<th></th>
<th>Recyclable %</th>
<th>Compostable %</th>
<th>Total recoverable %</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public Trash Receptacle</td>
<td>34</td>
<td>33</td>
<td>67</td>
</tr>
</tbody>
</table>

The Cycle 4 Grant was used in part to purchase a new triplet cart garage. Per discussion with Bay Cities Refuse, the City’s old downtown trash receptacles are emptied seven days a week, 365 days a year and that historically they are full to overflowing. These old containers generally have a 32 gallon capacity. Per year, the total MSW collected in a single trash container is approximately:

$$\text{MSW} = 1 \text{ container} \times 32\text{gal/container-day} \times 365 \text{ day/yr} \times \text{ cu. yd/202gal}^1 \times 225\text{lbs/cy}^2 \times \text{ ton/2,000lbs} = 6\text{ tons of MSW}$$

From the above percent composition, this works out to approximately:

Recyclable ... = 2 tons annually in the Public Trash Receptacles
Compostable... = 2 tons annually in the Public Trash Receptacles
Landfill .......... = 2 tons annually in the Public Trash Receptacles

With the new triplet cart garage purchased by the Cycle 4 Grant, and labeled with stickers purchased by the Cycle 3 Grant, it is conservative and reasonable to assume that at least 50% of the contents to be recycled and composted are being removed from the public trash receptacles MSW waste stream.

---

1 RecycleMania Volume-To-Weight-Conversion Chart
2 Mixed Municipal Solid Waste, (uncompacted) New Mexico Environment Department
Therefore, with a 50% reduction, annually 3 tons of recyclable and compostable materials are estimated to be removed from the Public Trash Receptacle MSW stream with installation of a new triplet cart garage, purchased with Cycle 4 Grant funds, and labels purchased with Cycle 3 Grant funds.

School Outreach.

Using County of Marin data from its Cycle 2 Grant Final Report, it may be possible to estimate the amount of compostable material diverted from the waste stream generated by Willow Creek Academy’s approximately 360³ students as a result of presentations made by the Conservation Corps North Bay.

Waste generated per person per day = 3.9lbs⁴ at Willow Creek Academy

Food scraps + green waste + other organics = 40% of waste stream⁵

Number of School Days per Year = 180⁶

Compostable Waste Generated per Student per School Year:

360 Students x 3.9 lbs/person-day x 180 days x ton/2,000lbs x 0.40 = 50 tons per school year.

The goal of the outreach is to reduce MSW by 75% at Willow Creek Academy. If this is achieved, it equates to a reduction of:

0.75 x 50 = 38 tons diverted annually from Willow Creek Academy.

Assuming a 25% success rate due to educational efforts, this equates to:

Tons diverted annually = 0.25 x 50 = 12 tons diverted annually from Willow Creek Academy

This excludes teachers and administrators who may also be present during the outreach and any carryover habits that the students may bring home. To achieve the higher diversion rate, regular educational efforts may be required. For the purpose of estimated diversion, the 25% success rate will be used.

Commercial & Multifamily Outreach

The Study noted that 43% of commercial MSW is compostable and 25% recyclable. For multifamily homes the Study noted that 51% of the generated MSW is compostable and 20% recyclable. Continued outreach to commercial facilities, particularly restaurants, is necessary to reduce these percentages. The City does not have quantities of MSW generated specifically from local restaurants.

As a hypothetical exercise, End Food Waste Now.org indicates that an average restaurant can produce 150,000lbs of garbage annually. From the Study, 43% of MSW generated from commercial

---

³ Safe Routes to School Program Grant Application Willow Creek Support Letter, December 1, 2014
⁴ County of Marin JPA Cycle 3 Zero Waste Grant Final Report Form
⁵ IBID
⁶ Education Commission of the States
establishments is compostable. The City of Sausalito Chamber of Commerce lists 34 restaurants on its website. Using these numbers, the annual amount that is compostable and recyclable is:

34 restaurants x 150,000lbs/yr x (0.43 + 0.25) x ton/2,000 lbs = 1,700 tons annually

If there is a just a 5% diversion rate from restaurants as a result of the postcards that were mailed, this would result in a diversion of

0.05 x 1,700 = 85 tons per year.

The Sausalito Sustainability Commission wanted to reach out to multifamily residences, as it is thought that often residents within these dwellings do not receive educational materials distributed by the City’s solid waste handler, Bay Cities Refuse. In 2010 there were 1,923 multifamily units in Sausalito, with an average of 1.7 persons per household.

Using these numbers, this calculates to 3,270 residents living in multifamily homes. The tonnage of MSW generated annually by these residents is:

3,270 persons x 3.9 lbs/person-day x 365 days/yr x ton/2,000 lbs = 2,330 tons/yr.

Of these 2,330 tons/yr of MSW, the Study showed that 71% is compostable or recyclable, or 1,650 tons/yr could be diverted from the MSW.

If there is a 5% diversion rate from these residents as a result of the postcards that were mailed, this would result in a diversion of

0.05 x 1,650 = 82 tons per year.

Estimates based on identified assumptions and listed sources. Estimates prepared by Andrew Davidson, Senior Engineer, City of Sausalito DPW.

Print Title
Introduction
The Marin County Hazardous & Solid Waste Management Joint Powers Authority (JPA) administers the Zero Waste Grant Program. The following procedures and requirements describe project and reporting requirements, report due dates, report contents, grant payment conditions, eligible and ineligible project costs, project completion and closeout procedures, records and audit requirements.

Grant Program
The JPA is offering grants to Member Agencies and Special Districts whose application identifies a program that works towards the Zero Waste Goal. Zero Waste Toolkit Documents have been developed by the JPA to implement waste reduction programs uniformly throughout Marin. Member Agencies are not limited to the type of Zero Waste Projects they wish to implement. Special Districts that administer solid waste franchise agreements do not have the authority to implement ordinances or resolutions; however they are encouraged to develop programs which work toward Zero Waste.

Primary Zero Waste Projects: Are encouraged to be developed first and include:
• Zero Waste Resolution
• Construction and Demolition (C&D) Ordinance
• Commercial and/or Residential Food Scrap Recycling

Secondary Zero Waste Projects: Can include, but are not limited to:
• Construction & Demolition (C&D) Ordinance Enforcement Costs
• Outreach and Training Coordinator to Set Up Recycling and Composting at Schools
• Coordinator for Recycling and Composting at Local Events
• Purchase Easily-Portable Event Recycling Containers and Accessories for Loan for Local Events
• Adding Public Recycling Receptacles
• Waste Audits
• Local Composting Classes
• Support of Food Scrap Composting Programs
• Differential Costs of an Environmental Purchasing Policy
• Commercial and Multifamily Outreach and Support
• Zero Waste Case Studies
• Mini-Grants program to environmental, educational or community groups Zero Waste activities.
• Printing outreach materials using the JPA’s to be developed “Do-It-Yourself” templates for Zero Waste outreach

Eligibility & Funding
Grant funding is available only for JPA Member Agencies and Special Districts identified as ‘Applicants’.

It is recognized that each applicant will incur various costs while implementing Zero Waste Projects. Therefore, it is intended the grant program funding will help cover a portion of those costs.
Funds will be available on a USE IT OR LOSE IT basis. It is important that you apply for funding each year to ensure your municipality gets its share of grant funds.

The total allowable funds for each jurisdiction would be:

**Application Procedures**

The application is limited to two pages, including the provided application forms. A sample Grant Application can be found on the JPA website: ZeroWasteMarin.org.

- Determine grant fund eligibility, as described above (use the figure listed under “Cycle 5 Funds Available”)
- Determine the Zero Waste Projects your Jurisdiction intends on implementing.
- Complete the Zero Waste Grant Application and Work Plan and submit it by July 1, 2015.

Once the Grant Applications and Work Plans are received they will be reviewed by the JPA which will determine if applications meet the Grant requirements. Jurisdictions will be authorized to commence their proposed programs upon receipt of ‘Notice to Proceed” from the JPA. A Final Report (Exhibit C) must be submitted to the JPA by May 1, 2016. These reports will describe the progress made at the time of the report submittal, outcome of the program.
implemented, an account of funds spent, and an estimated tonnage of waste that was diverted through each program. A sample Final Report can be found on the JPA website: ZeroWasteMarin.Org

Milestones
- June 1, 2015 - Application Materials Released
- July 1, 2015 - Application Deadline
- July 8, 2015 - Cycle Awarded / Grant Term Begins
- May 1, 2016 - Grant Term Ends
- May 1, 2016 - Final Reports Due

Communication
All communication regarding this grant shall be directed to the JPA Grant Manager. Submit Applications/Work Plans and Final Reports and written correspondence to:

JPA Grant Manager  
C/o Marin Co Waste Mgmt Div.  
PO Box 4186  
San Rafael, CA 94913-4180

Eligible Costs
As identified in the Grant Guidelines, all expenditures must be only for activities, products, and costs included in the approved Application and Work Plan. Services provided and costs must be incurred after receiving a Notice to Proceed and before the end of the Grant Term. Costs, including materials, supplies, equipment, facilities, must be directly related to the approved grant project, be reasonable, and focused on local needs as described in the application. Any proposed revision(s) to the Work Plan and/or Budget must be approved by the JPA Executive Director.

Ineligible Costs
Any costs not included in the Application and Work Plan and not directly related to the approved grant project are ineligible for funding use. Questions regarding ineligible costs can be directed to the JPA Staff.

Compliance
Grantees shall comply fully with all terms of the Zero Waste Grant Program. JPA Executive Director, as the administrator of the program, has final say in all matters grant related and has all oversight and administrative authority.

Recycled Content Requirements
All products that are purchased with grant funds must contain post consumer recycled-content material. All documents submitted to the JPA must be printed on double-sided on 100% recycled content paper. Specific pages containing full-color photographs or other ink intensive graphics may be printed on photographic paper.

Audit / Records Access
The Grantee agrees that the JPA or their designated representative shall have the right to review and to copy any records or supporting documentation pertaining to the performance of this
Agreement. Grantee agrees to maintain such records for possible audit for a minimum of 3 years from the date the Grant Term ends.

Copyright Information
Any copyrightable materials produced with Grant Funds become the property of the JPA and the Member municipality. Questions regarding copyright materials can be directed towards the JPA Grant Programs Coordinator. Examples of copyrightable material included, but are not limited to:

* CD’s and visual material
* Brochures, Pamphlets, and reproductions of advertisements designed for distribution
* The following language must appear on any copyrightable material produced with JPA Grant Program Funds:

© {Year of Creation} ZeroWasteMarin. All rights reserved. This publication, or parts thereof, may not be reproduced without the permission of the JPA.

Use of the initials “JPA” in conjunction with “ZeroWasteMarin” is sufficient when space is limited.

Grant Payment
Grant funds will be available to Grantees once they are given the Notice to Proceed. All applicants who submit a sufficient Application and Work Plan will be sent payment of the full grant amount as soon as possible once the Notice to Proceed is authorized by the JPA Executive Director.

Reporting
A Final Report is required to be submitted by the Grantee to the JPA at the end of the Grant Term (respectively). The report will identify activity during the term of the grant and summarize all activity conducted in the performance and fund use of the grant. Copies of adopted documents (Ordinances, Resolutions, etc.) will be included in the report. All grantees will calculate and report a diversion tonnage estimate to identify program effectiveness.

If all program criteria have not been met by the end of the grant term, the Grantee may report on the progress toward each grant task and demonstrate they have made all reasonable and feasible efforts to implement those programs. A sample Final Report can be found on the JPA website: ZeroWasteMarin.Org

A failure to submit the Final Report by close of the grant term will be reported to the JPA Board of Directors or Executive Committee and may affect the availability of future grant funds.

Good Faith Effort
The undersigned applicant, given appropriate jurisdictional authority to apply and conduct the proposed application, does give a full faith pledge to work toward the adoption of Zero Waste Programs as described in the Grant Term therein.

The undersigned also affirms; that any funds received under the Zero Waste Grant Program will be used solely for the purpose of implementing and providing residential and commercial waste reduction or diversion programs under the guidelines described in the Grant Application.

In the case that the Grantee fails to implement the programs indicated on their application, the determination of whether the Grantee has or has not made a good faith effort will be made by the JPA Executive Committee, Board of Directors or its designee.

$_______________________

D. Recipient’s Zero Waste Grant Expenditures

Please provide a description of the Zero Waste Projects completed and how funds were spent. Also please estimate the tonnage of materials diverted or not consumed as a result of the project.

If all grant funds have been used the Grant Amount should match the Total in the table on the next page. Grant funds must be spent during the current cycle and will not be available to your Jurisdiction in the next grant cycle. Therefore, it is most beneficial to your Jurisdiction to expend all funds. Grantee shall maintain record of all expenditures.

To: JPA Board Members

From: Steve Devine, Program Manager

Re: Election of Joint Powers Authority Chair

The current Board Chair, Nancy Mackle is retiring from her position as City Manager of the City of San Rafael.

Accordingly the Board needs to elect a new Chair.

The Chair can be any Executive Committee member. Your Board may simply choose to elect one of the current JPA Executive Committee Members or you can modify the membership of the Executive Committee and then elect a Chair from that group.

If your Board does wish to modify the Executive Committee the membership must include members from the County, City of San Rafael, City of Novato, Southern Marin Cities (Sausalito, Tiburon, Belvedere, and Mill Valley), and Ross Valley Cities (Ross, San Anselmo, Fairfax, Larkspur, and Corte Madera). The agreement additionally specifies Executive Committee members shall serve two-year terms and may be reappointed.

The last time the Executive Committee membership changed was at your October 23, 2014 meeting.

The current makeup of the Executive Committee is:

- Chair and representative of the City of San Rafael, Nancy Mackle
- Vice Chair and representative of the County, Matthew Hymel
- Representative of the Ross Valley Cities, Garrett Toy
- Representative of Southern Marin Cities Adam Politzer
- Representative of the City of Novato, Michael Frank

Recommendation
Election of a new JPA Chair.
