

**MARIN COUNTY HAZARDOUS AND SOLID WASTE MANAGEMENT JOINT POWERS
AUTHORITY**

**RESPONSE TO QUESTIONS
FOR
ZERO WASTE PUBLIC OUTREACH & EDUCATION REQUEST FOR PROPOSALS
(RFP)**

1. Are there any pre-committed events, media purchases, or sponsorships we should plan to incorporate into planning?

Response: No.

2. From what we can tell it appears your website is WordPress, however we note your request for SilverStripe development. Can you please share what you use SilverStripe for, and which version you are using?

Response: Correct. The website is WordPress. Our apologies for this confusion. Section 4a of the RFP should read as follows:

~~a.—4a.~~ Provide information on your capabilities (or those of an identified sub-contractor) who can manage the more technical aspects of the ZeroWasteMarin.org website. The ZeroWasteMarin.org website is built on WordPress, ~~the SilverStripe application framework (Sapphire). Sapphire is an object oriented, MVC, PHP framework. A developer must possess a relatively high degree of proficiency with the PHP scripting language and a basic understanding of the Sapphire Documentation and API.~~

~~General Documentation — <http://doc.silverstripe.org/framework/en/2.4>~~

~~API — <http://api.silverstripe.org/2.4/>~~

~~Silverstripe demo: <http://demo.silverstripe.org/Security/login?BackURL=%2Fadmin%2F>
user: admin
pass: password~~

3. Page 6, The General Documentation link to SilverStripe 2.4 says this is an old version and may no longer be supported. Will ZWM or the new contractor need to take care of software updates?

Response: See Question #2.

4. The API link gives an error message -- not sure what this was trying to point to?

Response: See Question #2.

5. Was there a third party vendor that subcontracted with O'Rorke for SilverStripe support/implementation, and if so can that firm be named?

Response: See Question #2

6. Page 3 of O'Rorke final report: What follow-up, if any, occurred in the "Interested in Presentations" section? Would we have access to contact, and if so how current is the contact list?

Response: We do have some contacts from O'Rorke, (between 10 – 20). We do not feel the list is complete and would expect the contractor to identify new opportunities in conjunction with direction from JPA staff.
